

# Enterprise Active Directory

## ADOPTION PROJECT

### *What are we doing?*

The College of the Liberal Arts is participating in the University's initiative to migrate all computers to one domain. This is the Enterprise Active Directory project or *EAD* for short.

### *Why?*

This will help align all of the Colleges, reducing duplication of effort and aligning units with the University's security policies.

### *What's in it for me/the customer?*

This means that once the project is completed, you will only have one username and password. Moving forward you will utilize your WebAccess credentials to login to Liberal Arts computers.

### *What do I need to know/do?*

We will provide specific instructions to everyone closer to your computer's migration date.

### *When will this happen?*

We plan to migrate the entire college to EAD by **September 30, 2019**.

### *When will I hear more about this?*

You should hear more general information regarding the migration from your department and ITLA. We will be providing several email communications and reminders on what you can expect from the process and what you can do to make it successful. Emails will be specific to your Windows or Mac operating system.

**MORE INFORMATION IS AVAILABLE ON OUR WEBSITE AT [EADAP.PSU.EDU](http://EADAP.PSU.EDU)**
